The online Congress arises from the need to create a space for debate and reflection on the state of the European Union and its relationship with Asia. Topics to be addressed include both Economics, International Relations, Security, Business & Management, Sociology, among others.

It is an international, interdisciplinary conference with the aim to show particular topics -case studies- and general -conceptual- ones. The contribution is requested through the submissions of finished or ongoing works.

On an annual basis, this Congress will be a meeting place for researchers of all disciplines (e.g. political scientists, economists, historians, jurists, sociologists, philosophers, as well as specialists from any other area of knowledge). Likewise, we encourage the participation of doctoral students, professionals of the private sector, public administrations, etc.
